

Celebrations Flare Catering

“If you can imagine it; we can create it!”

My name is Tracy Mulligan and I have been in the food service industry for 23 years. I started very young in a restaurant and opened my catering business in my early 20s. I am married and have 3 kids who love to eat as much as I do! I've been operating my catering company for 14 years and love how we have grown and innovated in ways that provide the best services to our clients. The interaction and creative food services that we bring to each and every celebration is what I love best about what I do. In short, I love to be in the kitchen --creating new dishes, flavors and teaching others as well, but most of all seeing the smiles when people enjoy my food.
