So you now have an Asset Management Plan. What next? Should you borrow for repairs and renovations, or should you phase in upgrades over time through reserves? Join staff from CHF Canada’s Asset and Financial Planning team as they talk about these questions and much more, including what you need to attract a lender.

We’ll cover how to find the right project manager to work with your board and get repairs and renovations completed smoothly. And you will hear from co-op members who have gone through the planning and finance process to find out what they learned. As an added bonus, CHF Canada’s new Regional Energy Coach will be on hand to provide advice and guidance on making your homes energy efficient.

Facilitators: Ofelia Guanlao, Dave Howard, & Rajathi Ratnasiri
