

WORKSHOP

# BOARD WOES

## SPOTTING AND FIXING DYSFUNCTION

When a board works well it makes sound decisions, achieves good results, and inspires members' confidence — all in a positive environment. Sadly, many co-op boards fall short of these goals and are more or less dysfunctional. This engaging workshop will explore some of the symptoms of a dysfunctional board and provide practical actions to help improve your board's performance. The time to do it is now, before larger problems occur!

Facilitator: Sue Moorhead, CHF BC
