

WORKSHOP

PLANNING COMMUNITY ENGAGEMENT IN YOUR HOUSING CO-OP

Community events and activities form the cornerstone of cooperative living, enriching the lives of those who call it home by fostering fun and connections. Yet, we've all encountered occasions when our efforts fall short, or we have a lack of engagement and volunteers.

Community engagement is a vital process that empowers individuals to assess, plan, and implement programs and activities that resonate deeply within their community. In this workshop, we aim to equip participants with the fundamentals of authentic engagement. We'll delve into crafting effective engagement plans and provide a toolkit brimming with resources tailored for use by your planning committees.

Join us as we explore the essence of community connection and learn how to foster meaningful engagement within our Co-operatives
